

Fact Sheet: War Crimes Issues in Bangladesh

- The issue of accountability is important. We are closely following the government of Bangladesh's attempt to address issues of accountability.
- At this time it is premature to discuss any possible U.S. government assistance.
- We have consistently stated that any individual arrested and charged with a crime should be treated fairly and accorded the full range of legal protections that meet international expectations for transparency, fairness, and due process. Such issues should not be politicized.
